# THE OREGON SHORT LINE.

JUDGE MERRITT APPOINTS EGAN AND BANCROFT AS RECEIVERS.

Union Pacific Officials Are Satisfied, as They Feel Assured of Fair Treatment-End of a Stabborn Legal Battle.

Salt Lake, U. T., June 10 .- Judge Merritt, of the Third district court, handed down his decision in the Oregon Short Line & Utah Northern railway case to-day. He appoints John M. Egan, of St. Paid, and W. H. Bancrott, of Salt Lake, as receivers of the entire property, within the jurisdic-tion of the court. This is upon the condi-tion that the interest now due on the mort-gases shall be paid up by July 1, and that otherwise the property shall be surrenlored to the reservers of the Union Pacific
road. Mr. Bancroft is one of the general
superintendents of the Union Pacific system. The decision has been the all-absorbing topic in railroad and commercial
circles to-day.

Before the order of the court is operative
it makes it incumbent upon the American
Loan and Trust Company to pay \$23,900
interest due on the mortanges July 1, and
to pay all interest falling due thereafter
within thirty days after mainrity. This
includes the interest on the Utah Southern
mortgages.

No reference was made to the issuing of receivers, cortinates. The loan and trust company made a strong fight for a single receiver, claiming that the appointment of an associate receiver would defeat the

objects of the suit.

In some quarters it is claimed that the loan and trust company will not accept the canditions imposed by the court. This opinion is in part shared by Mr. Egan him-

### PERFECTLY SATISFIED.

The Union Pacific Officials Got What They Greatly Desired.

The Union Pacific Officials Got What They Greatly Desired.

Omaha, Neb., June 10.—It was a foregone conclusion that the Short Line and the Ulah Northern would be placed under the control of a separate receiver, the only hope of the interests antagonistic to the American Loan and Trust Company being to secure a co-receiver who would be fair to the Union Pacific, which has now been accomplished by the appointment of W. H. Bancroff, superintendent of the mountain division of the Union Pacific, General Manager Dickinson was elated over the appointment of W. Bancroff, whom he regards as the one man to direct the interests of the separated property. He said:

"But I don't believe Mr. Egan will accept the terms of the transfer, embodying as it does the Utah Southern, a property which has not paid operating expenses, Our people feel satisfied with the terms of the order as made by Judge Merrit, and if it is accepted by the American Loan and Trust Company, it must be ione at great cost to that corporation. The American Loan and Trust Company, through its aitoneys, has fought the co-receivership idea from the beginning, and this, coupled with the interest feature of the order, which is along the lines outlined by the attorneys for the lirst mortgage interests, receivers of the Union Pacific and Oregon Short Line will probably prove too much of a load for the receivers to carry. "Should Mr. Egan accept, it will not affect the forces at Union Pacific headquarters to the excellent of more than thirty meil, and as for our mechanical forces, they are reduced to a minimum. It has been my blea, however, all the way through, that if two receivers we accredited to the property and the contentions of the attorneys for the first mortgage and other interests followed, the successor receiver could not consistently take the property.

pressed about headquarters we for the order became known, for the foreign of the departed that Mr. Egan would not ta Short Libe loaded down with non-divisions, as in the case of the Southern and Southern extension.

## Very Little Accomplished.

Very Little Accomplished.

Chicago, June 10.—The advisory committee of the emigrant clearing house held an important conference with its agents to-day. It was expected that the row between the Grand Trpuk and the Canadian Pacific would come up for decisive action, and the same expectation was held regarding the action of Johnson & Co., of New York, in sending business over the Scaboard Air Line, which is not a member of the clearing house, but nothing was done on either. Both were informally discussed, however. The only business transacted was the passage of a resolution directing Chairman Caldwell to route the business coming through the Figurazi agency, of San Francisco, over the different interested lines. This was the business which was formerly controlled entirely by the Union Pacific and which it agreed some time ago should be divided among all the lines.

Chairman Caldwell to-day handed down a ruling on the construction to be put upon the agreement concerning reduced rates for the Epworth League convention to be held at Chatranoona in July. He rules that tekets sold at the reduced rates must be accepted by the loint agent, a sufficient time in advance of July 15 to permit the passenger to make a continuous trin to his destination allowed under the agreement.

sult of the government to recover shows so
from the state of the late Senator Leland
Stanford. He contended that under the
acts of isel and isel, there was no provision
that the stockholders of the Central Pacific

bends should be paid, he contended, was
only a condition of the bill. It was not a
contract—it was only a condition. A decision is expected in about a fortnight.

The Sliver League of Kansas City met last evering at the Coates House, President Henry N. Ess presiding. The evening was deveted to a discussion of plans for a thorough "sliver campaign" in the city. The secretary reported that he had sent invitations to everal prominent exponents of the white metal doctrine to speak at the proposed Fourth of July demonstration, and had heard from Senator Vest and Judge Caldwell to the effect that neither of them could be present. Frank Playter reported that he had presented the invitation of the cinb to Harvey, author of "Coins Financial School," to address the Fourth of July meeting, but that gentleman had said that he was busy getting in training for a discussion of the money question with Congressman Horr, of Michigan, and that it would be impossible for him to come West. It may be that ex-Senator John J. Ingalls, of Kansas, will be present, that gentleman having declared that he had no engagement for that day and that he would consider the matter and report in the near future. John C. Gage, who leaves to morrow to attend the Memphis convention, will, if possible, secure some able exponent of free collage to address the grand demonstration.

In pursuance to a suggestion made by Dr. Bradly, the secretary of the club was instructed to prepare a number of printed slips containing the principles of the club and distribute them among the swenty members now belonging to the club, to be used in increasing the membership. O. K. Creek Sewer.

O. K. Creek Sewer.

Petitions are in circulation in the Fourth and Fifth wards, which are the opening of the fight for the \$40,000 apportioned for use in the continuation of the O. K. creek sewer. The people are being asked to sign papers to be presented to the council, requesting that this money be expended in two different places. The first one to start on its round asks that the council ordain that whenever work is commenced, it must be at the present terminus of the sewer and so westward. The petition has been quietly going the rounds for some time, but the movers thereof have a fight on their hands, as the Flith ward people are sixing the other petition with great unanimity.

Both papers are being vigorously pushed and both papers will reach the council well sprinkled with names of property owners and voters of the two wards most in interest. A meeting will be held to-morrow afternoon to consider the matter and outline a plan of campaign. There is certain to be a brisk contest all along the line, as it is said that the Belt line is back of the petition for the beginning of work from the present terminus. The other plan will meet the approval of the members of the lower house from the two wards, as they feel that it is of greater importance than the transfer of the dumping place into a new district without completing the sewer.
